Re: Provider #85210
Operating Certificate #180110450 [Amended]
PRU #307

Dear Mr. Shuwall:

Operating Certificate #180110450 [Amended] is issued by the Office of Alcoholism and Substance Abuse Services (OASAS) pursuant to the New York State Mental Hygiene Law. This certificate amends the authorization for Long Island Jewish Medical Center to operate a Part 822-5 opioid treatment program at 75-59 263rd Street, Glen Oaks (clinic) and 270-05 76th Avenue, New Hyde Park (billing), effective October 21, 2015. The amendment is based on review and approval of the Medical Protocols to add "ancillary withdrawal services" to the Operating Certificate.

Long Island Jewish Medical Center is responsible for complying with applicable building occupancy limitations and securing any necessary approvals from other governmental entities.

This Operating Certificate is to be prominently displayed at the service site. Pursuant to 14 NYCRR §810.17, the previously issued Operating Certificate (original document) must be returned to OASAS' Bureau of Certification immediately.

The Mental Hygiene Law requires services to be operated in accordance with the terms of the Operating Certificate. Therefore, please carefully examine this certificate and notify the Bureau of Certification immediately if it contains any inaccuracies.

Sincerely,

Janet L. Paloski
Director
Bureau of Certification and Systems Management

**Client Data System Reporting Instructions
For Providers Approved for Ancillary Outpatient Withdrawal Services**

Part 822 programs approved to provide Ancillary Outpatient Withdrawal services are required to identify each patient admitted for the purpose of receiving withdrawal services. For programs using the PAS-44N admission form, "Ancillary Outpatient Withdrawal" must be written in Special Project line.

NYS Office of Alcoholism and Substance Abuse Services Client Admission Report FOR ADMISSIONS DATED 4/1/2009 AND BEYOND		
Program Number _____		
Special Project (See instructions): <u>Ancillary Outpatient Withdrawal</u>		
Adm Date ____/____/____	Last 4 SSN _____	Last Name First 2 Letters ____

All patients admitted for ancillary withdrawal must be entered into the Client Data System with the Special Project "Ancillary Outpatient Withdrawal," which will appear in the admission screen drop down menu. Only programs approved to provide Ancillary Outpatient Withdrawal services will be able to select "Ancillary Outpatient Withdrawal" from the special project drop down list. If "Ancillary Outpatient Withdrawal" does not appear in the drop down menu and the program was approved for the project, the provider should file an Issue and Problem Report electronically. This is done by clicking the "Help" tab and then Report Issues and Problems (see below).

If the provider has already entered ancillary outpatient withdrawal patient admission information (PAS-44N) into the Client Data System, those patient records should be edited to include the Special Project Code.

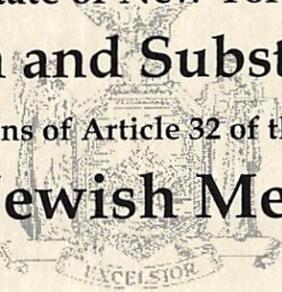

Please be advised there will be no adjustments made to the Integrated Program Monitoring and Evaluation System (IPMES), Program Performance Report indices, or Scorecard measures at this time.
