**TELEPRACTICE ATTESTATION FOR PREVENTION SERVICES
2019-2020 ANNUAL REPORT**

Telepractice Attestation for Prevention Services

Attestations submitted by certified and funded prevention providers to deliver prevention counseling and intervention services (i.e., Teen Intervene) are still in effect. No additional action is required by certified and funded prevention providers who have an attestation on file with OASAS.

2019 – 2020 Annual Report

The deadline for the submission of the 2019-2020 Annual Report and the On-Line Survey was extended to November 1, 2020. The annual report will include outcome findings of Evidence Based Practice (EBP) and non-EBP programming completed July 1, 2019 - Feb 29, 2020.

For prevention services delivered by March 1, 2020 and June 30, 2020 OASAS a separate online survey has been developed to capture prevention service delivery during this time period. This online survey is designed to capture modifications to service delivery and innovative practices. This survey is mandatory component of the Annual Report process.
