Technology-Based Supervision
(Extending the Reach of Clinical Supervisors)

Presented by Dr. Delores Blackwell LCSW, and NYS OASAS

Training Description:
We are living with and maximizing the impact of on-line services delivery. Supervisors and the supervision they provide are especially critical as we adjust to this evolving transition. This practical and interactive learning-community provides guidance for preparing and assuring the impact of supervision-conversation conducted using digital resources and platforms.

The objectives for this workshop include facilitating the development of a personal model of supervision and practicing skills helping shape the delivery of high quality, effective clinical services to those seeking assistance for substance use disorders.

Participants will:
• Reflect on experience of telephone & video supervision.
• Identify degree of comfort, proficiency, and willingness to use technology.
• State a minimum of three actions that can be taken to provide effective telephone and video supervision.
• Commit to one action that will be taken to maximize engagement and to enhance the positive impact of supervision.

Six (6) OASAS clock hours are approved to be applied to the OASAS credentials: Credentialed Alcoholism and Substance Abuse Counselor, Credentialed Prevention Professional and Credentialed Prevention Specialist (CASAC/CPP/CPS Renewal only).

Who Should Attend:
Addiction Treatment Professionals/Prevention Professionals, Mental Health Professionals and Recovery Professionals.
