Select **New Sponsor**. Then select **Continue**.

If you have other applications in process with OASAS, they will show up on this screen and you can open one of those or create a new submission. We will **Create a New Submission**.
The **Main Site Information** will fill-in from the database with the Administrative Address. You must enter the **New Sponsor Information** under the **Proposed Operator box**. Complete the **Contact Information** and the **Alternate Contact Information** and select **Save**.
You will receive a message at the top of the screen telling you that the submission identifying information has been saved. At this point in the submission, you can exit out of NYSE-CON and return later to complete the submission if you wish. If you wish to continue at this time, you can select the Executive Summary tab to continue.
Enter the Executive Summary for the project and select **Save**.
Your Executive Summary will be saved. If you need to modify, select the **Modify** button. If you are satisfied with the Executive Summary, you can move on to the **Application** tab. It is not necessary to select the Sites tab as this application effects all the program’s sponsorship.
The top of the screen will show the required schedules that need to be uploaded. To begin, select **Add Document to Submission**.
Select the **Document Type** you would like to upload. For this example, we will select Attachment 1A – Prior Consultation Form.
You can enter an optional description for the document if you wish. In the case where you are uploading multiple copies of the same document type, a description is required. Next, select the **Choose File** button to navigate to where your saved schedules are on your computer.
Click the Add Document to Submission to upload your schedule. Repeat these steps to upload all the required schedules listed in Red at the top of the screen.
When you have uploaded all the documents, click on the General tab to submit the project.
Click the **Submit** button to submit the project. If you need to make modifications before submitting, click on the **Modify** button.

Click on **Confirm** to submit.
You will receive a message at the top of the screen regarding the submission. An Application Number will also be assigned.
