

Applicant Inquiries & Responses for RFA #SUPP1014

College Prevention Initiative

1. Please clarify if the funding is available to implement programming on any SUNY campus or is it restricted to community college campuses only?

Response: This funding is restricted to prevention providers that will be collaborating with SUNY/CUNY community colleges only.

2. The agency is pre-qualified under the Grants Gateway. This is my first grant with this program, I want to ensure I can move forward with the application process. Is there any further I need to do other than submit the application? We have a local community college I would like to partner with Columbia Greene Community College. Can I do a combination of EVB and environmental strategy?

Response: If you are pre-qualified under the Grants Gateway, please submit an application. Yes, you can engage in a combination of EBP/S (Evidence-Based Program and Strategy) and ECS (Environmental Change Strategy)

3. We are interested in applying for the College Prevention Initiative and are wondering if it is allowable to partner with a 4-year SUNY college such as Farmingdale State University or SUNY Old Westbury? Or is it necessary to partner with a 2-year SUNY community college?

Response: This funding is restricted to prevention providers that will be collaborating with SUNY/CUNY community colleges only.
