

CASAC REINSTATEMENT MANDATORY TRAININGS

To Reinstate a CASAC credential that has been expired for longer than one year, 75 hours of trainings listed below must be completed by clicking each training title. These are the only trainings acceptable to reinstate your credential. For the majority of the trainings, a certificate can be obtained through the OASAS answerkey portal (<https://answerkey.net/oasas/>) by taking a test for each training completed. The trainings marked with a single asterisk (*) indicate that the certificate will be provided by the training provider's website. The trainings marked with a double asterisk (**) indicate that the training provider does not provide a completion certificate. For double asterick (**) trainings, you must go to answerkey to sign an attestation that you completed the training. For assistance please contact the Training Unit at training@oasas.ny.gov.
